PATROL REPORT

July 17, 2022 (Balboa Peninsula Point Patrol Assignment)

Shift: 7pm to 3am

S/o Walter Jenkins on duty

7:00pm to 8:00pm: I began my shift from A St to Balboa Blvd and also Ocean Blvd all the way down to Jetty Park and everything is code 4 nothing to report at this time.

8:00pm to 9:00pm: In this hour, I patrolled all the streets and alleyways and there is a lot of traffic around Jetty View Park, everything is code 4 and nothing to report at this time. I then proceeded to make my way over to the clubhouse to turn on porch light and secure clubhouse. I then continued my patrol and while patrolling I was stopped by two residents on Ocean Blvd about two little kids that lit a firework and took off running so I investigated and see if I can locate them but I had no luck in doing so, so I carefully let the residents know that I will be monitoring the peninsula more throughout the night to catch these little kids lighting fireworks.

9:00pm to 10:00pm: In this hour, I patrolled all areas of the community and traffic around the peninsula is starting to be at a minimum everything is code 4.

10:00pm to 11:00pm: In this hour, I started to walk the beach and notice 6 people sitting on the sand and 2 people sitting on lifeguard shack so I kindly inform them of the closure of beach and they understood and eventually proceeded to leave, I then proceeded to head over to the pier and upon arrival there were about 7 people fishing at the end of the pier and 4 people sitting in the sand at kids beach so I kindly inform them of the closure of pier and beach area and they proceeded to leave.

11:00pm to 12:00am: In this hour, I started to make my way around Balboa Peninsula to make sure all parks are secured and unoccupied which Miramar Park and L Street Park and M Street Park were. I then proceeded to make my way towards Jetty View Park and upon arrival there was 4 people sitting on benches so I kindly inform them that the park closes at 11pm and so they understood and proceeded to leave the park.

12:00am to 1:00am: In this hour, I took my lunch and started on my report.

1:00am to 2:00am: In this hour, I then proceeded to head towards A St. to M St. checking for any activity on the side streets leading to beach area and everything is clear and code 4 at this time. I then continued my patrol and while patrolling I notice two people on the pier so I informed them of the pier closure and they proceeded to leave. As I continue patrolling I notice two left open garages one at [1721 E Balboa Blvd](#) and another one at 2109 Ocean Front so since it was pretty late I went ahead and took pictures and monitored them till the end of my shift.

2:00am to 3:00am: In this hour, I continued patrolling all areas of the community everything is code 4 and clear and there is no traffic around Jetty Park as well as beach area and pier. S/o Walter Jenkins now off duty.
