8:00pm: S/o Martinez on duty. I began my shift by patrolling up and down all alleyways and public streets. No issues to report.

9:00pm: I continue to patrol throughout the community and also did inspection of the clubhouse and tennis courts. All is secure.

10:00pm: at this hour I discovered two men fishing on the private dock and advise them that it was time to go. They both opted to go to the jetty and fish off the rocks. I then went over to the wedge and cleared out the beaches. I found five young Hispanic teens playing a loud music box and drinking what appeared to be beer from paper bags on the very first life guard station. I advised them all to immediately leave otherwise they would be subject to Police citation. They all immediately got up and left the beach and I escorted them towards the park and watch them leave in a vehicle.

10:17pm: at this hour I returned back toward the private dock for inspection and found the garage wide open at home number 2210 Balboa Boulevard directly next to the HOA barbecue area. The gate was locked on the home entrance so I rang the doorbell and waited for the homeowner to open up the front door. I advised him that his garage was left wide open and he thanked me for letting him know.

11:00pm: I continued to post up by the Park and turned away some beach goers. Everything is calm and quiet at this hour.

12:00am: I continue to monitor all areas of the community.

Note there are quite a few trash bins that are overflowing with trash throughout some of the alleyways and people have furniture left out for the trash man as well.

1:00am: I continue to patrol up and down all alleys and streets. There are several garages throughout the community that have been left open for ventilation.

2:00am: I continue to maintain surveillance of the entire community. No problems to report.

3:00am: at this hour I discovered a homeless man, male Caucasian approximately 40 years old sleeping on the bench at the entrance of the private dock. I woke him up and advised him that he was not allowed to sleep here. He uttered some gibberish that I could not understand and said something about wanting to eat a fish? I advised him to pick up his backpack and he immediately start walking out of the community. It took him about eight minutes but he finally got up and started walking out. I drove around and made sure he left the community.

4:00am: S/o Martinez off duty.

The resident told me that they were in the back yard of a home right where else Street meets the alley and that they did not live there. S/o Martinez on duty.

8:00pm: I begin my shift by patrolling up-and-down all alleyways and public streets. There is light foot traffic throughout and everything is calm.

9:00pm: I continued to patrol all areas of the community, and found approximately 4 garage doors wide-open and will revisit after 10 PM to see if they are closed. Note* for several weeks now I have been noticing many vehicles parked along alley ways throughout the community and have also noticed the "no parking in alley" signs. Is this something that we should be enforcing? Please advise.

10:00pm: at this hour I cleared off the private dock of fishermen and proceeded to clear out the beaches near the jetty.

10:15pm As I began walking toward the beach from the cul-de-sac I noticed two white TV station vans with the channel 2 logo parked on the sand just beyond the grassy area of the park. As I approached one of the vans I asked one of the cameraman how long they planned on being here and he said they were leaving right now. However, the other van camera man and woman wanted to walk down to the beach to go report on the large waves. I advise them just as I was advising the rest of the public that the beaches were now closed and that they needed to vacate the area. The cameraman took issue with me and I advised him that it was a city ordinance regardless of who he was and asked him if he had a special city permit? He told me no and asked if I could confirm what I was saying to him with the police department. I called Newport Beach Police department and had them on speaker phone so that the cameraman from channel 2 could hear me speak with the dispatch. The dispatch officer advised both of us that as of 10 PM beaches are fully closed and No One including the media is allowed to be down at the beach. The cameraman asked me if they could just do a quick segment from their current location which was at the end of the park where the sand begins and I told him "yes" . They were done by 10:30 PM and proceeded to leave the area.

11:00pm: I continue to monitor the jetty and turned away the folks that wanted to go down to the beach to look at the waves.

11:40pm: I proceeded to inspect the private dock and found two Asian men in their 50s fishing off the dock. I advise them that it was closed since 10 PM and that they needed to vacate the dock immediately. They both picked up their tackle boxes and fishing poles and left the area.

11:47pm: I proceeded to patrol up-and-down alleyways and out of all the open garages that I had noticed earlier during my shift, I found one left wide open at 1541 Ocean Blvd. (See pic) I attempted to make contact with homeowner but was unsuccessful and no one answered the door.

12:00am: I continued to monitor all areas of the community, no problems to report.

12:25am: Note* For the past several nights I have been noticing a large cluster of trash and debris in the alley up against a fence directly behind address; 2060 Ocean Blvd. (See pic).
